Bel Marmo Finish is a unique blend of marble dust, marble aggregate, and slaked aged lime, designed to achieve a classic Marmorino matte finish with either a smooth or distress texture. Inherently water-resistant and durable, Bel Marmo can be used on a variety of exterior and interior surfaces to create a unique and long lasting finish.

Basic Uses
Bel Marmo can be applied over properly prepared interior or exterior surfaces including: gypsum sheathing, plaster, stucco, brown-coat, cementitious base coats, concrete, masonry, paint, and other approved substrates.
Bel Marmo

A Slaked Lime-Based Plaster Finish

Surface Preparation
All surfaces to receive application must be free of debris, dust and dirt, efflorescence, grease, oils, curing agents, and cleaning solutions. Ensure that all surfaces are smooth and free of irregularities. Repair all cracks with the appropriate patching material for the existing substrate. Surface should be primed with Valentino Mineral Primer. Using Valentino Mineral Primer creates even suction and mechanical bond over the substrate and is a requirement of the Valentino warranty for most applications.

Mixing
1. Bel Marmo Finish should be thoroughly mixed prior to use with a paddle style mixer. If needed, refer to the Valentino Color Bottle System product data sheet for color mixing instructions.
2. If multiple pails are being used, intermix (box) pails to achieve color consistency.

Application
Apply when temperature is between 45°F (7°C) to 90°F (32°C). A variety of finishes are possible using Bel Marmo. The following are general guidelines for application. Different application methods may be utilized to create the desired appearance.

1st Coat - Base Coat
1. Apply Bel Marmo with a clean stainless steel trowel. Apply slightly thicker than the largest aggregate in an irregular pattern.
2. Allow the first coat to dry 80-100 percent.

2nd Coat - Texture
1. Apply Bel Marmo slightly thicker than the largest aggregate in an irregular pattern.
2. Allow the material to partially dry (until it is not tacky to the touch, but not dry) and use the trowel to polish the surface to the desired sheen.
3. If desired, apply Valentino Topcoats after a minimum of 24 hours and sealers after a minimum of 48 hours.

Curing
Allow material to dry naturally. Do not force dry with heaters or fans. Protect from excess wind and direct sunlight while material is wet. Lime-based finishes undergo a chemical change during curing, where the lime putty reacts with carbon dioxide in the air to turn back into limestone. Product should fully cure in 7 to 28 days following application. Curing time may vary due to ambient temperature, surface temperature, and surface porosity, application methods, and/or thickness of material. All freshly applied material must be protected by an approved protective system from moisture or inclement weather until cured. It is the responsibility of the applicator to determine if the product is cured and/or dry prior to exposing it to rain, snow, dew, and/or any other inclement weather condition that may be detrimental to the product.

Limitations
DO NOT apply product when the ambient and surface temperature is below 45°F (7°C) or above 90°F (32°C). The ambient and surface temperature must stay consistently within this range until fully dry (see also CURING). Material that is allowed to freeze may suffer irreparable damage. Protect all work from inclement weather with an approved protective system until fully cured.
DO NOT add any other materials to the mixture of the product without written approval from Omega Products International, Inc.
DO NOT apply Bel Marmo if there are contaminants on the receiving surface. Contaminates may include, but are not limited to, dust, debris, efflorescence, and/or oils. DO NOT use a mixer that exceeds 500 RPM.

NOTE: Failure to follow manufacturer’s written specifications could result in the following, but not limited to spalling, cracking, peeling, chipping, delamination, discoloration, wash off, and overall system failure.

Due to job conditions beyond the control of Omega Products International, Inc., we make no warranty as to the acceptance of the final color. The actual integrally colored finish should be applied on a sample section of the project and verified for color accuracy prior to the actual application process.

Cleaning
Cleaning may be accomplished with water immediately after use.

Safety
Avoid contact with eyes or prolonged contact with skin. Wash thoroughly after handling. In case of eye contact, flush immediately with running water for at least 15 minutes. Consult a physician immediately. Do not take internally. Be sure to provide adequate ventilation in enclosed areas. Use of an approved respirator is recommended.

KEEP OUT OF REACH OF CHILDREN

Disclaimer
Omega Products International, Inc. (Manufacturer) MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE PRODUCT(S) SOLD HEREIN. The recommendations, suggestions, statements and technical data are based on the best knowledge available to Manufacturer and are given for informational purposes ONLY and without any responsibility for their use. It is expressly understood and agreed, as a condition of the use of this product, that the buyer’s sole and exclusive remedy for any claimed defective product against Manufacturer shall be the replacement of products actually proven to be defective. Manufacturer’s sole and exclusive remedy for any claimed defective product against Manufacturer shall be the replacement of products actually proven to be defective. Buyer bears all risks and liability whatsoever in connection therewith. This writing constitutes a complete and exclusive statement of the understanding between Manufacturer and Buyer.

Claims
Any Claimant shall notify Manufacturer immediately in writing of any alleged defect in the material. Claimant shall provide Manufacturer with a reasonable and exclusive opportunity to investigate and test for the alleged defect. For any claim that is not valid, Claimant agrees to pay Omega’s reasonable charges, including travel and labor associated with the investigation of such claim.

Technical Assistance
Technical assistance and information is available by calling Omega Products International, Inc. at (800) 600-6634 or FAX (931) 520-2594 or by e-mail at info@omega-products.com.

Warranty
The following is made in lieu of all expressed and implied rights, warranties and conditions, statutory or otherwise. The manufacturer’s sole obligation shall be to replace such quantity of products proven to be defective within one year following the date of manufacture, provided that the alleged defective product is returned prepaid to the manufacturer’s plant and is accompanied with proof of purchase and batch number.
